BEZEL™ LIDS

Flat Bezel™ Lid

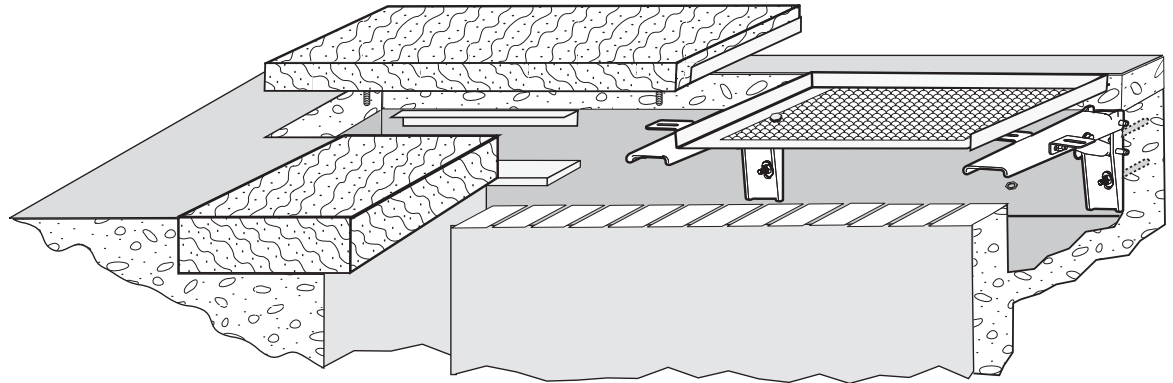

Tilted Bezel™ Lid

Stepped Bezel™ Lid

VANISHING LID SYSTEM

NOTE:

Walk-on Vanishing Lid™ systems require a concrete housing, or, if using a wood housing, a concrete wall must be poured behind the box for anchoring brackets.

Walk-On Vanishing Lid™

This design offers an adjustable tray support system for any type of deck material. Stainless-steel trays and brackets provide the support base for a strong walk-on lid that can blend with the surrounding deck.

Note: The deck thickness must be increased for extended trays if the leading edge is going to fit under the tray. Contact Cover-Pools for more information.

Maximum width of any tray is 24".

Maximum length of tray is 36".
